Datathon -2019

Datathon is an initiative to provide a platform for data science enthusiast to learn, apply and hone their data science skills through the social impact challenges presented to them. A two -day Datathon-2019 event was organized by Symbiosis Institute of Geoinformatics in collaboration with Here technologies on 18th sept.2019-19th sept2019 at SIG, Pune. The 12 teams with 5 team members in each team, participated in the event. After two days of regressive engagement on problem identification, analysis, coding, and implementation, two teams were selected as winner and runners up for the event. The prize distribution was conducted on 19 Sep 2019 at 16:00 PM in Class Room No 601. During the event, students were introduced to how to use the APIs and map-making platforms provided by HERE and SIG was very rewarding. The experience of this event have enhanced the way of thinking towards innovation, give them insights into the 'world of work' and help them to understand data products. Total 51 participants from different institutes across Pune and 09 Participants from SIG participated in the event. The SIG faculty the projects which were distributed in 12 teams.
