

PREFACE

This study report ‘Flood Susceptibility Mapping using ArcGIS Pro to map flood risk areas of the Gajapati district of Odisha’ is the outcome of the six-month internship project undertaken by me as part of academic requirement of my Fourth Semester course in M.Sc. Geoinformatics that I am pursuing in “Symbiosis Institute of Geoinformatics (SIG)” under “Symbiosis International University”, Pune, India.

The study was carried out during December, 2022 - May, 2023. As part of the study, I have collected all the data from various online sources.
